NO. 135

**Don't Laugh at Nervous People.**  
Their sufferings are very real, although you, with your vigorous physique and strong nerves, can scarcely believe it. Rather suggest the use of Hostetter's Stomach Bitters which, in removing every trace of dyspepsia, and regulating the liver and bowels, strikes at the root of the trouble, and cures the nervous system. That nerve-shattering disease, fever and ague, is among the formidable ailments, to the removal of which this gentle remedy is specially adapted. Nervous prostration, resulting from prolonged mental or physical effort, is also a state of the system where the intervention of this tonic is very desirable, particularly as its use is to quiet and relax the tension of overworked nerves. The Bitters are invaluable in rheumatism, neuralgia and kidney troubles. Employ no substitute for it.

**The Only Perfect Remedy.**  
For habitual constipation, dyspepsia and kindred ills, is the famous California liquid fruit remedy, Syrup of Figs. It strengthens as well as cleanses the system, it is easily taken and perfectly harmless. Large bottles for sale by Wm. Pinniger, Reno, Nevada.

**The Verdict Unanimous.**  
W. D. Sult, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism. Another, a sufferer from Stomach Bitters, was cured of indigestion. Abraham Hare, druggist, Belleville, Ohio, affirms: "The best selling medicine I have ever handled in my 25 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only a half-dollar a bottle at S. J. Hodgkinson & Co's., Drug store.

**Happiness and Health.**  
Are important problems, the former depending greatly on the latter. Everyone is familiar with the healthy properties of fruit, and no one can afford to be sick and miserable while the pleasant California concentrated liquid fruit remedy, Syrup of Figs, may be had of our enterprising druggist, Wm. Pinniger, Reno, Nev.

When baby was sick, we gave her Castoria.  
When she was a child she cried for Castoria.  
When she became a woman, she clung to Castoria.  
When she had children, she gave them Castoria.

**Excitement in Texas.**  
Great excitement has been caused in the vicinity of Paris, Texas, by the recovery of J. E. Corley, who was so helpless he could not turn in bed, or raise his head; everybody said he was dying of consumption. A trial bottle of Dr. King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills; by the time he had taken two boxes of pills and two bottles of the Discovery, he was well and had gained in flesh 20 pounds. A trial bottle of this Great Discovery for Consumption free at S. J. Hodgkinson & Co's.

**Don't Trifle with any Throat or Lung Affection.**  
If you have a Cough or Cold, or the children are threatened with Croup or Whooping Cough, use Acker's English Remedy and prevent further trouble. It is a positive cure, and we guarantee it. Price 10 and 50 cents.

W. PINNIGER, Druggist.

**40,000 Copies of "Gazette."**  
Through the ten days of Fair week there will be issued in all 40,000 copies of the DAILY GAZETTE. A like favorable opportunity for advertising never was presented to the people of Washoe County and others doing business in the State of Nevada. Stockholders, merchants, professional men, manufacturers and all other business men should avail themselves of this opportunity to advertise.

**At Night Always have Acker's Baby Soother at hand.** It is the only safe medicine yet made that will remove all infantile disorders. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by

W. PINNIGER, Druggist.

**Make no Mistake.**  
By dispelling the symptoms so often mistaken for Consumption, SANTA ABIE has brought relief to many a household. By its prompt use for breaking up colds that tend to become fatal diseases, thousands can be saved from an untimely grave. You make no mistake by keeping this pleasant remedy in your house. CALIFORNIA CAT-R-CURE is equally effective in eradicating all traces of Nasal Catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, wholesale and retail agents, \$1.00 a package, 3 for \$2.50.

**If you Would enjoy your dinner and are prevented by Dyspepsia, use Acker's Dyspepsia Tablets.** They are a positive cure for Dyspepsia, Indigestion, Flatulency and Constipation. We guarantee them. 25 and 50 cents.

W. PINNIGER, Druggist.

**Unnecessary Misery.**  
Probably as much misery comes from habitual constipation as from any derangement of the functions of the body, and it is difficult to cure, for the reason that no one likes to take the medicines usually prescribed. Hamberg's Fig was prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., Proprietors, San Francisco.

**Bucklen's Arnica Salve.**  
The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by S. J. Hodgkinson & Co.

**THE REV. GEO. H. FRAYER,** of Bourbon, Ind., says: "Both myself and wife are now living to SHILOH'S CONSUMPTION CURE." Sold by Osburn & Shoemaker.

## Orpheus and Eurydice

The pleasing fable of mythology concerning Orph. and Eury., will do to sing children to sleep, but when you want to regulate the sun, start the street-cars, and govern the price of cheese, you've got to modernize it a bit.

They did it nicely in New York, and it drew clouded houses, and the picture galleries were ransacked for weeks afterwards, by available spinners looking for back number Orpheuses. But the article was very scarce, hence the dearth of marriage notices in the columns of the *Hour*, or something to that effect.

Eury. went down to the river to give the children their semi-annual bath, barefoot. That was very wrong in Eury. to do. No mother goes down to the river, nowadays, barefoot, to wash the kids in the water. The back kitchen, with a wash-tub of steaming suds, a horse-hair towel, and a word of reprimand, is the ordained ticket of the to-day time *modus operandi* of swimming the great unwashed. But the Eury. for Eurythology was bound to do it barefoot. She did, and a snake nipped her in the vicinity where the garter ought to have been. As she didn't wear the proscribed poisoned hose of commerce, she, and not his snakebite, was poisoned. She clomb.

Orpheus was a harpist of great fame. I presume he could pick the harp in a more satisfactory sort of style than any son of Italia who ever landed in Castle Garden. The new breed of the kind used to travel five miles to hear Orph. play, and the trees bowed down when he twanged the gut. If Orph. was alive to-day, the beasts would travel five miles out of their way to get beyond the unearthly strains of his bell-in-green-baited bag, wound up after each time with a wagon wrench. The trees would now wither and die, and there wouldn't be any maple sugar next spring—unless last year's surplus of fly-blown material would hold out until the year for the saccharine in the crude had elapsed.

After Orph. had portioned out the motherless children among the homes for the homeless of Thessaly, he began to feel down in the mouth. It was only a sort of a feeling, for Eury. had forgotten to fill up the earthen jars with sugar-crusted doughnuts, before she went to the river to slush the kids. There wasn't even a mince pie nor a pound-cake in the pantry. All that was left to remind Orph. of his spouse was a wad of Auburn hair-combs on the mantel, and a bill at the cloak-maker's shop.

But Orph. was disconsolate. There was no mistaking it. He just pined for Eury. beyond a doubt. He missed her soft footstep on the stairs, when nightly she came down to show him how to unlock the front door without a toothpick. Orph. was a trifle lax about such things; but his memory was retentive, when he sat down to his "Injine" rubber codfish balls, fried by an imported slave girl from Way Back. He wanted Eury. But she had clomb. Orph. didn't play very much upon his golden harp after Eury. got bit by a snake. It was just sort of pined away, but he didn't die. Now, the old story, according to mythology, is that he went into a strange land with his harp, after Eury. He played his way right into the hearts of the strange spirits, and got Eury. off on bail, to accompany him back to terra-cotta, or something of that order. There was one proviso, viz., that he mustn't look back, or Eury. would skip back to the edge of a damp cloud.

But he looked back.

That was where Orph. was dead wrong, according to mythology. Now, the whole fact of the case is this: The fellow who wrote the pretty fable thought he would do something that would last. I am happy to say it has. The man who lost his wife from a snake bite didn't go after her with a harp at all. He had more sense. He just buckled up his harness, took a big purse of money, and went and married a shy girl. The second wife, telling her what a great cook Mrs. Orpheus No. 1 was. And that's the true story of Orph. and Eury.—[H. S. Keller, in N. Y. Clipper.]

Good as gold—silver.

Adam and Eve were both facts and fables.

What is done cannot be undone, especially if it is a hard-boiled egg. A man must go back on his ancestors when they do not come forward to him.

When scriptural words fall from the mouth of a bad man, they are apt to be hurt.

A little wood that needs sawing and splitting, will keep tramping from a gentleman's yard.

No election result in this country is so bad as it might have been. It might have been Butler.

Rev. Phillips Brooks believes it is the duty of every man to hope. The person is right, and there is plenty of hoping room in the world.

George Alfred Townsend is now occupied in weaving facts into romance. In his newspaper work he is noted for weaving romance into what he styles as facts.

A railroad passenger agent is not considered fit for his business if he cannot take a railroad map, and show that his route is the shortest and quickest to any given point. There is no lying about it. The fact is shown in black and white.

## A Chinese Complexion.

When observed in one of the Caucasian race, is indicative of bile in the blood. Who would be yellow when he or she can exhibit the hue of health on cheek and brow through the aid of Hostetter's Stomach Bitters, an antagonist at whose onset liver complaint takes flight? For upon the tongue, nausea, sick headache, pains under the right ribs and shoulder blade, an unpleasantly odoriferous breath emanating from the mouth, a jaundiced tinge, which does not, like a potent venereal, drench the intestines or, like the mercurial preparations, contaminate the blood. Not only the liver, but the stomach and bowels are aroused, toned and regulated by this fine family medicine, which has won the confidence of the respectable classes, not by startling assertions on its behalf, but by the consistency of the claims made for it with its performance in every instance when tested.

**In Brief, and to the Point.**  
Dyspepsia is dreadful. Disordered liver is misery. Indigestion is a foe to good nature.

The human digestive apparatus is one of the most complicated and wonderful things in existence. It is easily put out of order.

Greasy food, tough food, sloppy food, bad cookery, menial worry, late hours, irregular habits, and many other things which ought not to be, have made American people a nation of dyspeptics.

But Green's August Flower has done a wonderful work in reforming this sad business and making the American people so healthy that they can enjoy their meals and be happy.

Remember—No happiness without health. But Green's August Flower brings health and happiness to the dyspeptic. Ask your druggist for a bottle. Seventy-five cents.

**SHILOH'S VITALIZER** is what you need for Constipation, Loss of Appetite, Blisters and all symptoms of Dyspepsia. Price 10 and 50 cents per bottle. Sold by Osburn & Shoemaker.

When a human being will brave the dangers of a ride through a whirlpool or a jump from some extraordinary eminence in order to gain the plaudits of a thoughtless populace, the presence of the fool killer is needed badly. Yet, it would be difficult for that individual to determine the initial point of the proposed slaughter. To his mind the query would present itself as to the better party upon which he could begin an onslaught. People who go dashing through seething waters in barrels or especially constructed boats, together with those other people who inaugurate the bridge jumping craze, have found the fame they sought. The obvious result has been to set endless other inventive minds at planning some foolhardy act which will throw its predecessors in the shade. Providence has been wonderfully kind to these individuals. The crop of fools gives promise of yielding a bountiful increase unless the temptation to blight it by a summary disposal of a half-ripened harvest becomes too powerful to resist with the power ordaining the span of life.

The Nevada State University is to be congratulated upon the business capacity of its Board of Regents. Governor Stevenson, Secretary Dornier and Professor Dovey are all gentlemen who take a practical view of a business proposition. This is shown by the substantial improvements that are in progress on the University building and grounds. The result of their management of the institution is already visible in the large attendance of students at the opening of the present term. With a splendid building on one of the most beautiful sites in the world, with fine grounds adorned with shade trees and flowers, and with the walks and drives that will soon be laid out and completed, the Athens of Nevada will be not only an attraction for the Eastern tourist, but it will be a place much sought by many people in the "Great Basin," who wish to give their children the rich heritage of a superior education.

The Philadelphia Times is a leading Democratic paper in Pennsylvania, but it is opposed to the free-trade fallacy adopted by the Ohio Democrats. Hear it:  
Hitherto the Democrats of Ohio have never dared to call Speaker Carlisle from the other side of the river to speak in Ohio, and Morrison has been shunned as the pestilence would be shunned, to give the Democrats some show in the State; but now Carlisle, Morrison, Waterson, Hurd, etc., will take the lead in the campaign, and swell Forester's majority by thousands.  
This is a good year, and Ohio is a good State in which to make this trial done manfully. The result of the experiment will be a good fingerboard for 1888. With Hurd and Morrison beaten in 1886, and Kentucky nearly defeating Carlisle in 1886, and held by only a plurality in 1887, most political leaders would be sufficiently admonished, but the only way to impress a free trade dog is to cut his tail off close behind his ears, and that is about the entertainment they will get in Ohio.  
It is only fair to say that the Democrats still hold Kentucky by a little over 4,000 of a majority.

OPTION dealing in real estate, a common practice in booming California towns, should be discouraged. Real transfers of property should be isolated upon. Buying options on land is no better than buying stocks on a margin, and about as likely to result disastrously to the buyer who ventures beyond his depth.

The Dakota Bell, the ablest funny paper in the West, is defunct. The old adage, "Laugh and grow fat," didn't work in the case of the Bell. It had been dieting on its own fun, which didn't produce healthy tissue, causing it to give up the ghost.

DEMOCRATIC journals continue to cry, "Put the rascals out." If the advice was heeded there would be a good many less Democrats in office.

TELEGRAPHIC BREVITIES.  
The cholera has appeared in Rome. Five cases and two deaths are reported.

The first record for August shows a total loss in the United States and Canada of \$5,317,500, against \$1,300,000 in August, 1886.

Jack Newton, a well known prospector and trapper, was drowned in Green river, a few miles below the reservation line, on August 30th.

The collections of internal revenue for July last were \$10,097,879, being \$301,411 more than the receipts last year during the same month.

## An Awful Fire in an English Theater.

### PEOPLE ROASTED ALIVE.

#### Upwards of 240 People Perish in the Flames.

#### THE FIRE LADDIES COMING

#### The Past Year's Business in the Patent Office.

#### One Hundred and Forty Persons Burned to Death.

LONDON, September 5.  
A theater at Exeter took fire this evening during the performance of "Romany Rye." The occupants of the pit, after an awful struggle, escaped, but many of them were greatly injured. There was only one exit from the gallery, and the crush there was terrific. Scores were trodden underfoot and suffocated. A fire escape was brought to a window, and many inside were rescued. Sixty corpses have been removed. The mortality is estimated at 100.  
The scene in the theater when the fire broke out was an awful one. Some men implored the audience to be calm, but it was impossible to check the frantic crush.  
The actors and actresses were taken from the windows with the aid of ladders. They lost everything except what they wore at the time.

Up to the present time 180 bodies have been recovered. They are almost unrecognizable. Thirty injured survivors have been taken to the hospital.  
The flames overtook the people who were wedged in an unmovable mass, and roasted them to death. Many who were rescued alive died soon after being brought out of the burning building.

LONDON, September 6.  
The victims by the burning of the Theater Royal last night were mostly working people. As soon as the flames were put out a large force began searching for bodies. The stairway leading to the gallery was literally packed with bodies, while at the head of the stairs there were scores of others piled one on top of another. The unfortunate victims had rushed to the door when the alarm was given, but found the stairway blocked and escape cut off. In the meantime the flames had reached the roof and they suffered horrible deaths.

There were pitiful scenes in the vicinity of the burning theater this morning, as friends and relations of supposed victims waited the recovery of bodies. In many cases, fathers and mothers both perished, and numerous children are thus left without means of support. Several bodies were burned so that only small children remained. The number of persons severely injured is 60. It is feared the number of deaths will reach 140.

In nearly every case the clothing had been torn off the victims. From many bodies limbs were missing, and the remains showed evidence that they had been writhed off. Several whole families, numbering from two to five persons, were lost. Twenty persons were discovered in one heap. A mother and child were found clasped in one embrace.  
A telegram from Exeter at 5 o'clock this morning says that the fire is under control. People are distracted with anxiety and fear, and relations of supposed victims waited the recovery of bodies. In many cases, fathers and mothers both perished, and numerous children are thus left without means of support. Several bodies were burned so that only small children remained. The number of persons severely injured is 60. It is feared the number of deaths will reach 140.

WHAT THE PAPERS SAY.  
LONDON, September 6.  
The Standard says: "The sad similarity between the Exeter theater fire and previous disasters suggests a culpable disregard of the teachings of experience."  
The News says: "It is safe to say that one effect of this awful disaster will be a general law governing the construction and management of public places throughout the Kingdom. After this accident and that at the Opera Comique in Paris, we ought surely to require no more warning."

PARIS, September 6.  
The newspapers all agree that the mobilization experiment is a success. They say if France had been in such a condition for war in 1873 as she is now, Germany would have found her match.  
Two men were arrested at Toulouse while taking notes of the movements of the troops, on suspicion of being German spies. They, however, proved to be reporters.

A Counter Irritant.  
DUBLIN, September 6.  
Messrs. Dillon and O'Brien have signed a notice calling a convention of delegates from all League branches in Limerick county to meet at Limerick for the purpose of arranging a plan for raising funds to aid evicted tenants and to counteract the landlords' efforts at extermination.

EASTERN DISPATCHES  
WASHINGTON, September 5.  
Commissioner Heaton, in a synopsis of his annual report, says that at the close of the fiscal year ending June 30th, the office was well up with the business in charge. The number of applications for patents of all kinds received during the year was 40,678. The Commissioner renews the recom-

mendation of his predecessors that the Patent Office be furnished with more room and greater facilities, and that the model hall and library rooms be restored and repaired. Referring to the defalcation of financial clerk Bacon, deceased, the Commissioner says that the shortage was \$31,001, against which were found bills and miscellaneous memoranda, etc., amounting to \$15,011.

The New Railroad Boss.  
BALTIMORE, September 4.  
The American says: "The question as to who shall succeed President Garrett is settled. The man whom the syndicate have settled upon as possessing all the requirements for the place, is Samuel Spencer, the present First Vice President of the B. & O. road."

Mrs. Cleveland Declines.

TREATMENT OF PRISONERS

What the Statutes of the State Require.

The following extracts from the statutes of the State may prove of interest to those who are endeavoring to solve the "vag" proposition: Section 2150 of the Bally and Hammond compilation—All prisoners sentenced by the Judge of any District Court, or by the Justices of the Peace of any Justice Court, and sentenced to a term of imprisonment in any county, city, or town jail, shall be deemed to have been also sentenced to labor during such term, unless the Judge or Justice of the Peace sentencing such prisoner, for good cause, orders otherwise.

Section 2152—In case any prisoner or prisoners are disobedient or disorderly, or do not faithfully perform their task, the said officers having charge of them may inflict punishment upon them by confining them in dark and solitary cells, etc.

Section 4470—All male persons having the physical ability to work, convicted of vagrancy and imprisoned on judgment therefor, may be required to perform labor on the public works, buildings, grounds, or ways in the county, and the Sheriff or other person having them in charge while performing such labor, may, in his discretion, employ any usual, reasonable, humane, and sufficient means to guard against and prevent such prisoner escaping from custody while being so employed.

Section 4472—If any imprisoned vagrant convicted under this Act, having the physical ability to work when required to do so, as herein provided, he may, as a punishment, be forced to work by being compelled to "pack sand," or carry other material and weight from place to place, or to perform other labor not unreasonable, inhuman, or too burdensome, until he declares himself willing to work, and does work as required; or in lieu thereof he may, in the discretion of the Sheriff, be confined in a cell of the jail and be fed upon no other food except bread and water, until he declares himself ready to work, as required herein; but both methods of punishment herein prescribed shall in no instance be inflicted at the same time.

In either case of punishment the prisoner shall have no credit given him upon his term of imprisonment, for such forced labor or solitary confinement.

Section 4473—It shall be the duty of the Sheriff, during fair and reasonable weather, when the same can be done without extra expense to the county, to procure employment for and set at work such convicted vagrants, who are serving out their term of imprisonment; and to this end, upon application to any Road Supervisor, Superintendent, foreman, or other overseer or custodian of any public works, buildings or grounds, he may deliver into the custody of said person making the application, such prisoners, to do labor as herein required, who, after working hours of the day, or after suspension of labor from any cause, shall be returned into the custody of the Sheriff of the county for safe keeping until again required for labor.

Section 1297—Every Sheriff, Jailor, or person who shall be guilty of willful inhumanity or oppression to any prisoner under his care or custody, shall be fined in any sum not exceeding two thousand dollars, and be removed from office.

Cured of Malaria.

22 FLORIDA ST., ELIZABETH, N. J.

I have been using Alcock's Porous Plasters for the last five years.

Some two years ago, after having been sick for upwards of six months with malaria, I found myself with an enlarged spleen, dyspeptic and constantly troubled with a headache, and my kidneys did not act very well either. Having spent most of my money for medicine and medical advice, I thought to save expense I would use Alcock's Porous Plasters, two on the small of my back, one on the spleen or gastric cake, and one on the pit of the stomach, just under the breast bone. I continued using the plasters about thirty days, changing them every week. At the end of that time I was perfectly well, and have remained so ever since.

Last evening a wedding was celebrated in Reno by Rev. Wm. Lucas, of Trinity Church, the high contracting parties being Charles H. Gordon and Miss Jessie Green. Mr. Gordon is a son of Major D. S. Gordon, Second U. S. Cavalry, commanding at Fort Bidwell, Cal. The bride is a San Francisco lady, and is a niece of Hon. Seneca Ewer, banker, of St. Helena, Cal. The happy pair left for their honeymoon for San Francisco, where a reception will be tendered them at the residence of the bride's mother, 225 Bartlett street. Miss Green has been a guest of A. D. Wilcox, of Winnemucca, Mr. and Mrs. Wilcox came from Winnemucca to attend the wedding.

For Southern California. Al. Lyman, for 22 years an engineer with the Central Pacific Railroad Company, will leave here tomorrow for San Luis Obispo, where he has a large ranch and where he intends to reside. During the 22 years of his employment by the company, most of which time he was running a passenger train from Truckee to Washoe, Mr. Lyman's train has never met with an accident. While there is no doubt that good luck was on his side in this respect, still his immunity from accident during his long run is mainly due to the fact that he was always at his post with a clear head and firm hand, and never allowed subordinates to do his work. Mr. Lyman thinks that he is entitled to a rest after nearly a quarter of a century at the lever, and he goes to Southern California hoping to pass the next quarter century under his own vine and fig tree.

## A FORMER RESIDENT.

Now Mr. Charles Knust is prospecting in the Golden State Under His Own Vine and Fig Tree.

Reno, Nev., Sept. 6, 1907. Editor Gazette: Information relating to former old and respected residents of Reno who have sought in other localities to better their condition in life is not devoid of interest to the general public, and with that view your correspondent, having visited our former townsman, Charles Knust, at his delightful home in the foothills near Cloverdale, California, presents the following:

Mr. Knust is literally enjoying life under the shade of his own vine and fig tree. The ranch owned by him is 240 acres in extent and is located about one mile from the beautiful little town of Cloverdale. The situation is romantic, and the ideal of all that is lovely and desirable as a rural home. That portion of the ranch under immediate cultivation is on the border of a little valley, through which winds the Russian river, the residence and grounds surrounding being situated on a plateau overlooking and giving a magnificent view of the valley below. Springing from the base of the hills are numerous living springs, two of which have been utilized, the water having been conveyed through pipes to the residence, outbuildings and grounds.

The vineyard is about 50 acres in extent and in the highest possible state of cultivation. There are about 30 varieties of the choicest grapes known, and to your correspondent, to whom the privilege had never before been accorded, the sight was a glorious one. The vines were loaded to repletion, and plucking cluster after cluster he recalled himself only to be tempted to renew the feast as he wandered through the vineyard by other and more tempting varieties. The greater portion of the vineyard is devoted to Zinfandel grapes, from which a superior quality of claret is manufactured, though other varieties, such as Burgundy, Red and Angelica, ports and sherris are manufactured. The present season Mr. Knust will produce about 8,000 gallons of wine, and the reputation of his wines is already such that he cannot begin to supply the demand for them. While Mr. Knust devotes his attention principally to grapes, he does not wholly neglect other fruits, as is attested by the beautiful orchard which lies in front of the residence. The varieties of peaches, plums, apricots, apples, olives, etc., are all of the choicest, indeed, no others are permitted to grow. Mr. Knust has applied an intelligent system of culture. When any fruit was found deficient he has grafted on the stock a choicer variety, and as a result has borne but fruit that finds a ready market. The orchard in which Mr. Knust resides is directly within the "thermal belt," and he contemplates planting an orange orchard the coming season. It has been demonstrated by actual experience that oranges not only flourish in that region, but fruit of a superior quality can be produced.

I have already trespassed too freely on your space, and though I would say more of my visit to the hospitable home of our old friend and townsman, I must close. I shall long remember my visit with pleasure, and bespeak for any of the old-time friends of Mr. Knust a hearty welcome should they visit him at his home. M. D.

More Light. The Reno Gas Company announce that early in the coming Spring they will establish in Reno a complete electric light outfit and run it in connection with the gas works. The power will come from steam engines of sufficient capacity, and will not be dependent upon the river's uncertain supply.
